

Community Learning Resources

The Pagosa Springs High School/Junior High Library-Media Center is not a public library in regard to circulating books and audio-visual materials to the general public. However, in circumstances when parents or concerned citizens are working on committees or activities that are sanctioned by the school district, the circulation of library materials may be allowed with the permission of the librarian and building principal.

Use of library facilities and use of library materials in the library itself must be done with the permission of the building principal and the librarian. Non-school users must check into the office as required by district policy.
